

## Eppendorf Summer Special – New wave!

BioPhotometer plus with UVette® Standard Pack – 30% OFF listprice

Purchase **BioPhotometer plus** (catalogue no. 6132 000 008) with one **UVette Standard Pack** (catalogue no. 0030 106 300) for 30% OFF listprice\*.

**Biophotometer plus – 9 wavelengths, 32 methods featuring a new operating concept for ultimate flexibility**

- Nucleic acids: dsDNA, ssDNA, RNA, Oligosn
- Protein: 280 nm, Bradford, Lowry, BCA
- Cell density: OD<sub>600</sub>
- Dye 550/650: incorporation rate of fluorescent dye
- Assays: endpoint measurements at 340 nm, 405 nm, 490 nm, e.g. enzyme activities or cell biological methods

### Eppendorf UVette

- Design: prevents the capillary effect – liquids remain in the center of the measuring area, even low volumens of  $\geq 50 \mu\text{l}$
- Convenience: Adapters enables the UVette to fit into instruments from other suppliers

**Offer ends 30<sup>th</sup> September 2010.**

\* Discounts are calculated exclusively from listprices on croatian market and not from special prices (e.g. public tenders, special agreements etc.)!
